

Academy for Implants and Transplants

Dedicated to Implant Education and Live Surgical Training

presents our

31st Scientific Session and Live Surgical Seminar

**Dental Implants
for your General and
Implant Practice**

October 26-28, 2012

located at the

**University of South Alabama
College of Medicine
Mobile, Alabama**

Dear Colleagues,

Join our Live Surgical Seminar! The Academy for Implants and Transplants is pleased to bring to you our 31st Scientific Session and Live Surgical Seminar in Mobile, Alabama. By exclusive contractual agreement, we are able to secure the facilities at the University of South Alabama College of Medicine in their state-of-the-art surgical suite and giant screen amphitheater lecture hall with laptop computer hook-up. There will be simultaneous audio/video communication between the audience and the surgeons for questions and answers during all the surgical procedures. The entire program can be captured on your computer to take home with you.

Due to the goodwill of its new Board of Directors, we are happy to announce that the AIT has overcome its financial burdens caused by the oil rigs and hurricane disasters in the South. The Gulf Coast is now as beautiful and pristine as ever. So, please join us for what we promise you to be one of the most rewarding experiences in live surgical implant training available today. We are all suffering economically and for this reason the Academy is happy to bring to you an educational and surgical experience, in two and a half days, that would cost you thousands of dollars if it were available in other venues.

We will present live surgeries on ADA and FDA approved implant systems, simplified bone grafting techniques, and computer guided, interactive CT technology for sinus elevations, and endosseous and subperiosteal implant placement. Evidence-based surgical principles will be utilized by outstanding surgeons exhibiting the highest degree of competence.

A special program for the surgical assistants, hygienists and entire office staff, will be presented simultaneously with the doctors' program, in a room adjacent to the surgical suite. This program will feature "all you need to know about implant dentistry" that is essential for the staff and for the success of your implant practice, plus the latest information on infection control and CPR.

Meals will be provided throughout the meeting, including daily breakfast at the hotel, lunches, coffee breaks, cocktail party Friday and a hot buffet on Saturday evening. Please join us for this fun filled event that will enhance your implant practice like no other.

Best Regards,

Louis J. Naman, DMD, MAGD
Chairman of the Board
Program Chairman

William D. Nordquist, DMD, MS
President

Professor Maurice Valen
Co-Chairman of the Board

Douglas M. Martin, DDS
Chairman, PR Committee

MISSION STATEMENT The Academy for Implants and Transplants is a non-profit dental implant organization composed of dentists and allied health professionals with a special interest in the discipline of implant dentistry. Our primary purpose is to represent the interest and welfare of our members by protecting their right to engage in all such dental implant procedures for which they are qualified by education, training, and experience, and to provide a mechanism by which our membership may obtain and sustain the necessary education, training, and experience in implant dentistry for the improvement of the general dental health and welfare of our patients.

COURSE DESCRIPTION This course combines lectures and live surgery sessions presented by an outstanding group of clinicians who will share their exceptional knowledge with the attendees in a scientific and live clinical environment at the University of South Alabama College of Medicine in their state of the art amphitheater and surgical suite. Lectures will focus on bone availability using various implant modalities and bone grafting techniques with emphasis on indications and contraindications; selection protocol; surgical procedures for selected implant placement; and prosthetic restoration.

- **Main Podium Program** - Lectures will focus on availability of various implant modalities and related clinical applications; indications and contraindications; selection protocols; surgical procedures for placement of selected implants; and, prosthetic restoration.
- **Live Surgery Sessions** – The surgical program will demonstrate implant selection protocol relevant to clinical situations presented, case diagnosis, and treatment planning for placement of selected implants and prosthetic techniques for restoration of the various modalities.
- **Auxiliary Program** – An informative 12 hour course offers “all you need to know about implant dentistry and maintenance procedures“, and will also include special handling techniques for implants, instruments, sterilization packaging procedures that will withstand the rigorous requirements of OSHA standards, as well as Infection Control and CPR.
- **National Mentorship Implant Program** has been developed by our organization in many states. Please inquire if you are interested in receiving personal instructions developing your implant practice, or need assistance on implant systems, biomaterials and clinical, surgical, and prosthetic procedures.

COURSE OBJECTIVES

Upon completion of this program, participants will:

- Understand existing types of the various implant modalities and their respective applications
- Understand the indications and contra-indications for the use of the various implant modalities
- Understand computer guided surgical protocol for the placement of the various implant modalities
- Understand prosthetic protocols for the restoration of the various implant modalities
- Understand When, Where, and How to select the proper implant modality for the particular situations in which it is to be used

This is a preliminary program; schedules and speakers subject to change.

PARTIAL LIST of COURSE FACULTY

David D. D’Alise DDS Fellow of the Intl Congress of Oral Implantologists and Academy of General Dentistry; Past-President of the New Mexico AGD; Founder and CEO of OCO Biomedical. Private Practice, Albuquerque NM

E. Richard Hughes DDS Diplomate of ABOI/ID; Fellow of AAID and American Academy of Implant Prosthodontics; member of Part I Test Construction Committee of ABOI/ID. Private Practice, Sterling VA..

Bobby R. Lewis MD DMD Chairman, Department of Oral Maxillofacial Surgery, Carraway Methodist Medical Center, Birmingham AL. Fellow of the AAID; Past-President of the Alabama Implant Study Group.

Huey B. McDaniel MD FACS Vascular Surgeon with St. Dominic Medical Center, Jackson MS. Medical Doctorate from the University of Alabama School of Medicine, with BS in Biochemistry from Tulane University.

Leonard I. Linkow DDS Pioneer of Implant Dentistry. Diplomate and Past President of ABOI/ID, AAID, AAIP and ICOI; author of 18 textbooks and hundreds of articles. Retired from career spanning more than half a century and the placement of thousands of implants.

Douglas M. Martin DDS Diplomat of ABOI/ID; Fellow of the AAID, ICOI and the Academy for Implants and Transplants; Member AAOMS; California Dental Board examiner, IV Sedation License. Private Practice, Stockton CA

Virgil Mongalo DDS Creator and Director of Live Implant Training Courses taught in Florida, Brazil, Mexico and Nicaragua. Private Practice, Miami FL.

Louis J. Naman DMD, MAGD, MAIT Diplomate ABOI/ID, Osseointegration Society; Past President AAID; Past Chairman AAIDRF; Fellow/Honored Fellow AAID; Recipient AAID Aaron Gershkoff Memorial Award and Isaiah Lew Research Award; Fellow/Master AGD. Private Practice, Mobile AL

William D. Nordquist BS, DMD, MS Diplomate of ABOI/ID; Fellow of AAID and AIT; member of the National Governing Board of the Academy of Implant Dentistry. Private Practice, San Diego CA

Mitchell A. Pierce Jr DMD Fellow and Honored Fellow of the American Academy of Implant Dentistry. Private Practice, Baton Rouge LA

Ralph A. Roberts DDS Fellow and Honored Fellow of American Academy of Implant Dentistry; Past-President of the AAID Western District; President of Pacific Implant, Inc. Private Practice, Rio Dell CA

Sonia Smithson DDS Member of Tennessee Dental Association, Nashville Dental Society, ADA, AAID, Alabama Implant Study Group, and Middle Tennessee Dental Implant Study Club. Private Practice, Brentwood TN

AUXILIARY PROGRAM

SATURDAY, OCTOBER 27

9:00 am to 3:00 pm **Sonia Smithson DDS**

Everything you need to know about implant dentistry, plus special handling techniques for implants and instrument packaging procedures for sterilization.

SUNDAY, OCTOBER 28

9:00 - 10:00 am **Donnie Newman BS, EMT**

Cardio-Pulmonary Resuscitation (CPR) certification as prescribed by the American Heart Association. Certificates will be presented upon completion of this course.

10:00 - 10:30 am **Break**

10:30 - 11:15 am **Andrea Naman Hand BS, RDH, RD-LD**

Maintaining Optimal Nutritional Health in the Surgical Implant Patient

11:15 - 12:00 pm **Helen Naman McDaniel, BS, RDH, CPI**

Pilates Fundamentals - Movements for Life: Transform how your body looks, feels and moves

**All breaks and lunches will be in the Exhibit Area
Schedule is subject to change**

ACCREDITATION

ADA CERP® | Continuing Education
Recognition Program

The Academy for Implants and Transplants (AIT) is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about the AIT may be directed to the provider or to ADA CERP at www.ada.org/goto/cerp.

The AIT designates this activity for 21 continuing education credits.

The Academy for Implants and Transplants (AIT) is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing dental education programs of this program provider are accepted by the AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from November 2011 to December 2013.
